① Do young people today make good use of their free time?

Comments:

I think today young people make good use of their free time. We like sport and to read in free time. Today every teenager has access to the Internet. Social sites are fun when we are bored. It helps to socialize with friends all over the world. It doesn't spoil our free time. Teenagers sometimes use social websites when they are bored in free time. They are perfect for communicating with friends and relatives.

Personally, I like to read books, to watch my favorite TV show on TV. It makes me happy. I have many hobbies now. For example, listen to music, have time with family and with friends. Sometimes I spend too much time with my dad. That all makes me happy. I think that all helped to explain that today young people make good use of their free time.

E) "Do young people today make good use of their free time?"

We live in the world in which move the era of Internet technology environment, etc. And ~~as~~ the experts said that in 21st century the many young people their free time spends on social networking websites. But no all the young people such do it. People mean that our youth can make good use of their free time.

Let us consider what advantages and disadvantages of make good use the free time. Firstly, all the people must spend their free time useful, isn't only young people. Secondly, the experts of opinion young people of the 21st century is able to spend their time good. Doubtless, in our community have the people which isn't able to make good use of their free time. Many young people prefer to sit on social networking websites. We should learn spending good of our free time. People began to forget the reality communicate and did the good things for our world.

In conclusion, we can say that not all young people can make good use of their free time. But, I hope the people can spend their free time and do good things in their life and for our world in the future.
